

Media List: South West

These represent the top media sources in your media. While contacts and contact details have been listed here, these can quickly become out of date so we would always recommend going through to the correct department first: news desk or features desk. It's further worth considering your neighbouring consortia prior to commencing a sell-in: they may well be approaching the same regional titles as you. Not all titles will be relevant to your local area – so do check which cover your town.

Newspapers
